

Inventory Sale

An invoice always brings to light odds and ends and sometimes full lines of seasonable good that a merchant prefers to sell at cost and even at less than cost rather than carry them over.

We have just finished our January invoice and it has brought out an unusually large lot of odds and ends that we are very anxious to close out and if prices will do it it will be done.

Haven't room to itemize, but you can count on finding tremendous bargains in every department in our store.

CREAM OF NEWS.

IF IT IS NEW AND TRUE THIS COLUMN HAS IT.

Fusion Deals Concluded—Child Horribly Burned—Garrott Case—Mad Dog—Mr. Hanbery Hurt—Other Matters.

A Double Snap.

Mr. Richard Bridges, of Maple Grove, Trigg county, was thrown from his wagon, sustaining a fracture of one leg in two places.

Death of an Infant.

Lafayette, Jan. 7.—An infant of Mr. Ed R. Bogard, aged 17 days, died this morning at 3 o'clock, of liver trouble.

Garrott Case Still Unsettled.

The trial of Clifton Garrott for shooting and wounding was called at Bolivar yesterday and again postponed till Monday the 18th inst. The case was postponed with the understanding that no further postponement would be allowed. Mr. Garrott, who has been absent from the State, is expected home this week.

Dislocated a Shoulder.

Gracey, Jan. 11.—Mr. T. C. Hanbery, of Hopkinsville, was thrown from a buggy near here Saturday afternoon, and his right shoulder was dislocated. Drs. Bell and Backus were called to render the necessary surgical aid. Mr. Hanbery was able to leave on the 9:30 train for his home.

Fusion in Trigg Perfected.

Cadiz, Ky., Jan. 11.—The conference committee of both parties met to-day and agreed upon the details of Democratic-Populist fusion in Trigg county. The Populists got the offices of representative, sheriff, assessor and coroner, and the Democrats all the rest. Both parties are satisfied with the arrangement and the joint ticket to be nominated will be elected with ease.

Deacon Carter Caught.

Ples Carter, the negro arrested at Guthrie by Detective Coffey, and charged with burglarizing the store of Geo. T. Randle, when arraigned for trial admitted his guilt and was placed under a bond of \$100, in default of which he was sent to the county jail at Elkton. Carter was a deacon in the Baptist church, colored, at Guthrie and in the absence of the regular pastor often filled the pulpit.

Mangled by a Mad Dog.

A little son of Mr. John Moss, a farmer living in the Garrettsburg neighborhood, while enroute to school Friday, was attacked by a dog believed to be afflicted with rabies, and was very badly bitten by the animal. He was thrown to the ground and the flesh was torn from the bone in many places, rendering his recovery very doubtful. Should he rally from his injuries he will be taken to Paducah at once and a mad stone applied to the lacerated parts.

For a Last Year's Crime.

Constable W. T. Frame, of the Lafayette district, arrested Louis Oldham a few miles east of Garrettsburg, and near the Tennessee line, Friday, and lodged him in jail here the same night. Oldham is charged with shooting and wounding with the intent to kill Challen Littlefield. The trouble took place last August and Oldham succeeded in keeping out of range of the officers until pounced upon by the Lafayette constable. He will probably give bond, as his trial will not come up until the Spring term of Circuit Court.

More Hensup Needed.

Harrodsburg, Jan. 10.—Wm. Dine, a farmer of Mercer, aged twenty-four, drove from his family residence yesterday afternoon to mill, and upon returning home found his wife lying dead upon the floor in her room, with her two small girl children hovering over her frightened nearly to death. A post-mortem examination revealed positive signs that the woman had been outraged and choked to death. Finger prints were upon her throat, and several bruises and marks of violence upon her limbs and person and evidences of a struggle were visible all around.

Child Badly Burned.

A fourteen months old child of Robert Wilkiss, who lives on Jessup Avenue, was perhaps fatally burned yesterday. The child while alone in a room caught its clothes on fire from a grate and when the mother was called from an adjoining room by the little one's screams she found the baby enveloped in flames. With great presence of mind she threw the child upon the bed and with the bedclothes smothered out the flames. It was believed yesterday that the injuries received by the child would result fatally, though it was still alive when we went to press.

A CHANGE OF BASE.

Republicans Will Hold Primary Election Feb. 20.

The Republican county committee met Saturday and decided to hold a primary election Feb. 20. Some weeks ago the committee held a meeting and decided to settle all nominations itself, in a meeting to be held the last Saturday in May. What caused the change of program was not announced. If the primary election puts any differ in phase in the contests within the Republican party, it is to empower the 3,500 negro voters to absolutely name the entire ticket, without consulting the 800 white Republicans or 200 new converts who voted with them last year. The primary is expected to open the list for free for all contests for several offices. Circuit Clerk Starling and County Clerk Bessie will hardly have opposition, but in all the other races there will be lively contests. Just what part Rastus will cut in the bidding remains to be seen. The primary will elect delegates to a convention Feb. 22.

THE DEMOCRATIC COMMITTEE.

Cooperation of Silver Men Invited—County Convention March 1.

The Democratic Committee of Christian county met yesterday with about 20 members present.

Some important matters were acted upon. The following resolution was unanimously adopted.

Resolved that it is the sense of the Democratic Executive Committee of Christian county that there should be a permanent union of all the friends of silver against the allied forces of the single gold standard and we cordially invite all friends of bimetalism and supporters of the Chicago platform to unite with us, upon a fair basis, in the election to be held this year.

A mass convention to nominate a county ticket was called to meet at the Court House Monday March 1, at 1 p. m.

MONKEY FARM IN FLORIDA.

Man Cures Their Meats for Epilepsy and Dyspepsia.

New York, Jan. 8.—A successful monkey farm has been established in the Florida Everglades by W. W. Jacobus, of Brick Church, N. Y., who has succeeded in raising a breed of monkeys whose meat, when properly dressed, is found to be most beneficial for epilepsies and dyspepsia. Mr. Jacobus and his partners in the enterprise, Andrew Crink, capitalist, of Philadelphia, Pa., and Captain Rex and G. R. Schultz, of Punta Rosa, Fla., have devoted a large portion of the last year to putting the monkey farm in a paying condition, and are now about to market a large output of meat.

True Bills Returned.

Henderson, Ky., Jan. 9.—True bills have been found against the negroes, Will Dixon, Will Loving and Dave Powell, by the grand jury for conspiring together to kill Louis Metzger on November 14 last. They were brought here from Hopkinsville on Monday, Jan. 18, and arraigned for trial. Commonwealth's Attorney Powell has evidence that each of them has served two terms in the penitentiary for felony and in the event of conviction in the Metzger case they will be sent for life.

The peace officers of the city and county were before Judge Givens yesterday in a body and were questioned by him as to whether or not it would do to bring these prisoners back here for trial, and they gave it out that they thought it would be perfectly safe to bring them here, and that the officers would do all in their power to protect them.

Vice-President Stevenson's Plans.

Pomona, Cal., Jan. 7.—Vice-President Adlai E. Stevenson, who has extensive interest in San Bernardino and Riverside counties, writes that he will probably go to Los Angeles immediately after the expiration of his term as Vice-President next March, but will keep his present home and law practice at Bloomington, Ill. He has a very large olive grove, planted last year, near Elwood, a large lemon grove in San Diego county, and 800 acres of untitled land in Riverside.

Books All Right.

Frankfort, Ky., Jan. 9.—State Inspector Leach has just returned from a several weeks' trip spent in the investigation of the books and accounts of the Eldridge prison and the Hopkinsville Asylum. There are various rumors about what kept the inspector so long, and about what he found there, but he has nothing to say, except that his reports to the Governor will show everything practically all right.

Charles A. Collier, who was at the head of the great exposition at Atlanta, has been inaugurated Mayor of that city.

FRANTIC FOR FUSION.

JUDGE BREATHITT SEEKING SOME KEYS TO THE SITUATION.

Political Conference in Paducah With Several Callaway People Present—Nothing Done, Says Judge Jim.

A suspicious political conference between Republicans and certain Populists from Murray was held at Paducah Saturday.

The following extract is from an article in the Register:

There was a significant conference at the Palmer House yesterday from which it appears that the Populists and Republicans of the Third judicial district, embracing Callaway, Trigg, Lyon and Christian counties, have combined in an effort to capture the offices of circuit judge and commonwealth's attorney. In the conference were Judge James Breathitt, the present Republican judge, and Butler Keys, a brother of Ben C. Keys, who wants to be commonwealth's attorney. There were also John Keys, another brother, D. L. Reddin, a prominent Republican, who is Breathitt's master commissioner and wants to be postmaster at Murray, and another benchman of Keys. The party held a long secret session, and while no information would be given out, it is reasonable to suppose that a little scheme was hatched out whereby Breathitt and Keys will run on the same ticket.

In the Sun, the Republican paper, the significance of the interview was denied in the following article:

Judge James Breathitt, of Hopkinsville, left this morning for Princeton, Ky.

In regard to an article in this morning's "Register" under the caption "Breathitt and Keys," he said: "That is mere speculation. The article is untrue and there was no fusion effected as a result of any conference. To tell the truth Butler Keys was not in Paducah, and does not intend to make the race for commonwealth's attorney so far as I have been able to find out."

"John Keys and D. L. Reddin, Populist and Republican, respectively, were casual visitors in Paducah, and did not come for any such purpose as alleged by the article. It is a fact that they were in my room at the Palmer House last night, together with John M. McLean, of Murray, but we did nothing but talk the matter over. I do not say, however, that fusion was not mentioned, but none was effected, and the matter stands where it was before."

"I think a great many Populists in this judicial district will vote for me for circuit judge," he said, "but not as a result of any conference held last night or at any other time. I think I will win without any fusion, but of course I would be pleased to have a coalition of Republicans and Populists effected. I could then win by at least 1,000 votes, but deem a fusion impossible."

"I do not think that there will be any other than a Democratic candidate for commonwealth's attorney in the campaign."

The Register's article was founded on little fact. The politicians happened to meet in Paducah, and held an insignificant conference, that is all."

BOB LAUGHLIN HUNG.

Double Murderer Explains His Crime on the Gallows.

Brookville, Ky., Jan. 9.—Robt. Laughlin was hanged here at 9:25 a. m. From the weight of many people on the fence inclosing the scaffold it fell. No one was hurt, but considerable excitement prevailed. The crime for which Laughlin was hanged was the brutal murder of his wife and niece. On the night of Feb. 14 last he killed his wife by striking her on the head with a poker while she was asleep, and then strangled his 12-year-old niece, whom he also killed. The murderer then set fire to the house, which was burned to the ground. Laughlin was indicted and charged with murder and arson, and confessed his crime. He died game.

Say It's Hydrophobia.

John M. Johnson, former Deputy Sheriff of Ohio county, and a prominent business man of Fordville, was recently adjudged insane and brought to the asylum here. Mr. Johnson was in Owensboro transacting some business matters when he suddenly manifested signs of insanity. Some of his neighbors say that he was a hydrophobia, inasmuch as he was bitten by a suspicious dog a number of years ago, and they say the symptoms of hydrophobia are present in his case.

Conductors Resigned.

Passenger conductors John Sharp and George Cole, who have long been in service on the Memphis line of the L. & N. and whose friends along the road are numerous, have been removed by the railroad as unauthorized. The cause of their dismissal is not announced.

A SNAKE BITE.

"Some of those snake stories I read in newspapers every now and then," remarked a man with a hayseed's swag along at the sport of the wind, "reminds me of an experience I had once."

"Have you taken the pledge since?" inquired the man, with that innocent manner some folks adopt when they desire to knock down all the pins on the alley and set them up on the other hay baw for the victim.

"Thanks, don't care if I do," instantly replied the hayseed, and it actually cost the reporter the price before he would be appeased.

"As I was remarking," he continued, after he had been thoroughly wet down, "I had an experience once that was interesting to tell about, if not in actual life. I was farming them days in New Jersey, and I had a farm hand hired by the month. One day I had him down behind the barn pulling out weeds and trying to get at the foundation of the place, so we could get under there and brace up the rocks that was getting loose. There was a hole about as big as a keg in the rock, and he was working to that. I was about 30 feet away from him, cutting the weeds with a corn knife."

"Weeds like that grow in New Jersey?" interrupted a person, but the narrator paid no attention.

"Why didn't you use a saw?" inquired another. But the narrator merely waited till the excitement blew over.

"And all at once," he continued, "he jumped about 11 feet above the weeds and yelled: 'Snakes! I ran to him, and as I came up I saw a snake's tail disappear, wiggle in the grass, and he raised up from where he had lit, holding tight to the handle. He told me he had stuck his hand in the hole to pull a rock out and the snake had bit him. I jerked in the middle finger above the hole, and there was a snake's head, showed me the old little double mark of a snake bite with a twenty twenty drop of greenish blood oozing from it. The man was about scared out of six months' growth and began begging for whisky, which I kindly gave him, for there wasn't a drop within five miles, this being a local option county and all of us temperance people—at least, my wife was, which was the same thing. I done the best thing I could, though, I knuckled, and there was a snake's head, and I took the man to the back porch, where I tied heavy twine strings around his wrist, and below his elbow, besides twisting a fish line around the finger just this side of the bite. At the same time I got the doctor, for there wasn't anything to look like he was drinking, you know, and I told him to brace up and be brave and the doctor would bring him around all right, even if his hand was swelling and getting black. But I might as well talk to the hitching post. That man had been used to liquor for snake bites, and nothing else was going to do him a bit of good, so he began to gild pale and white and weak and wobbly, and the first thing I knew he had keeled clean over, and didn't know a week day from Sunday. That's the shape things was in when the doctor rode up, and he set in on him right off with batteries and firing liquor up his his and shaking him up, generally, till the man showed life."

"Then the doctor let him have another snifter or two (I got one myself when the old lady wasn't looking), and pretty soon he said he thought the man was out of danger. Then he began to examine the snake bite and the first good look he got at it, after he got all the strings off the man's arm and wrist, made him squint his eyes at me as if maybe I had been myself, which I hadn't, nor never had in my life. After a careful examination he asked me what kind of a snake was it, and all I could say was that, judging from its tail and the rapidly it got away with its wasn't capable of moving. The doctor asked if he mightn't go down to the scene of the biting and take a look there himself, and I not only said he might, but I went with him."

"Have you taken the pledge since?" inquired the man, with that innocent manner some folks adopt when they desire to knock down all the pins on the alley and set them up on the other hay baw for the victim.

"Thanks, don't care if I do," instantly replied the hayseed, and it actually cost the reporter the price before he would be appeased.

"As I was remarking," he continued, after he had been thoroughly wet down, "I had an experience once that was interesting to tell about, if not in actual life. I was farming them days in New Jersey, and I had a farm hand hired by the month. One day I had him down behind the barn pulling out weeds and trying to get at the foundation of the place, so we could get under there and brace up the rocks that was getting loose. There was a hole about as big as a keg in the rock, and he was working to that. I was about 30 feet away from him, cutting the weeds with a corn knife."

"Weeds like that grow in New Jersey?" interrupted a person, but the narrator paid no attention.

"Why didn't you use a saw?" inquired another. But the narrator merely waited till the excitement blew over.

A NIGHT ATTACK.

"Now try it, pull 'em steady, and I think they'll haul it up. Let 'em go!" And the men whooped and yelled, cracked their whips and made all the noise possible as the heavily laden wagon moved slowly out of the creek up the hill. "Keep 'em at it," yelled Jack, one of the men. "Don't let 'em stop!" And the boys cracked and the men yelled louder than ever.

"Whoop! whoop!" yelled Fearon, as the wagon stopped on the bank. We were returning from a three-months' trading and trapping trip among the Kiowa and Comanche Indians, at the head of the Washita river. Our party consisted six—Jack Sargent, Luther Fearon, Dan Cornell, Harry Keating, Charles Cleveland and myself, Zosa Chena, as I was known among the Indians.

We had three six-mule teams, heavily loaded with robes and furs of all kinds, besides our trapping material and plenty of ammunition. We had been successful all winter, and the wagons were packed tight. We were crossing Rainy mountain creek, a deep stream with very steep banks. Two of the wagons crossed all right, but the third and last one stuck, compelling us to put 12 mules on to pull it out.

We were anxious to cross the creek and make camp in a little grove five miles ahead before dark, as the Indians had bothered us all day.

The grove was a good place to beat off an attack, and you may be sure it did not take long for us to straighten out the teams across the prairie.

We made the grove, corralled the wagons and put everything in good shape by dark. We couldn't make a fire, and consequently some dried buffalo meat and hard bread, with a cup of water, had to do for supper.

About midnight the mules commenced to snore and snuffle, and as though badly scared at something, Jack and myself moved out among them cautiously, but could see no cause for their fright, although we felt positive the Indians were around, trying to stampede them.

After seeing that the mules were all right, we laid our plans for the night. Jack, being the oldest scout and trapper, was looked to as leader. So, according to his arrangement, Luther, Jack and myself took the watch, and the rest lay down to take a sleep for a couple of hours, and then we were to turn in and take the watch. Everything arranged, we crawled outside the wagons and lay down about an equal distance apart, so as to see all around the camp.

Nothing occurred until near morning, when I heard Luther calling in a low tone to come over to him, which I did, and we were soon joined by Jack.

"Keep quiet," Luther cautioned. "There's two or three reds in back of that big cottonwood. We'll see what their game is."

In a short time we could see three figures crouch down and commence working their way towards us.

"Keep cool," said Jack. "Don't fire until I give the word. After you fire, get back to the wagons."

On they came, crawling stealthily toward us, apparently totally unconscious that we were lying so close waiting for the word to put an ounce of lead into them.

"Now let 'em have it!" whispered Jack.

He had scarcely spoken when the three reds cracked out, and two of the reds never got up. The other fellow jumped and ran to the time, and we crawled back to the wagon.

The boys were up and ready, and it sounded as though the Indians were ready, too, by the way they yelled. And so they were, for in a few seconds, the three commenced to fly around, some striking the mules and some flying harmlessly over our heads.

Day was just breaking, when the Indians made a dash towards us.

"Keep cool," said Jack, as we opened on them.

The fight had commenced in earnest, and they were determined

MY LADY'S SILK UNBELL.

My lady's silk umbrella
Is taper, smooth and neat;
And strong and light to stand her
From snow and rain and heat;
But, both of old and new,
(Black, while I whither you)
My lady's silk umbrella
Is big enough for two.

One rainy day I met her,
(Which frequently occurs),
And I had no umbrella,
No she gave me half of hers;
And before we parted—well, I guess
That she was just as true
Now, I'm glad that silk umbrella
Is big enough for two.

Now all good youths and maidens,
Here's one word to the wise:
Be sure you have one of these
Of a good, capacious size,
For there's never any telling
What luck may come to you;
Underneath a silk umbrella
There's big enough for two.

CALLED ON A GHOST.

I remember very well indeed what a shock it gave the boys of Nowell when they heard the first time that the old Shattuck place was haunted.

Charlie Gibbs and his father had driven in from Lacy late on the previous evening, and just as they reached a point on the road opposite the Shattuck house they were startled by strange sounds that seemed to come from the easiness windows of the old building. Charlie, who was a little sharp-eyed fellow, whose ideas flowed so fast that he often found difficulty in expressing them without stammering and sputtering, told about the adventure the next morning as soon as he reached the schoolhouse.

"Father tied the old mare," he said, "and we walked up to the porch. Just before we reached the porch we heard a scurrying sound, as if some one was running about outside. But when we stepped into the hall, there wasn't a thing to be seen—not even a bat nor an owl. Father walked to the middle of the kitchen. He was just going to say something, when we heard three or four hard raps on the door just under us. Perhaps we didn't jump! Then there was a sudden screeching, half-way between a groan and a laugh, but father and I didn't wait to see what it was. We ran as fast as we could for the road, and every step it seemed to me just as if something was trying to get hold of the tail of my jacket. And once (here Charlie's voice sunk to a whisper) I looked over my shoulder and saw—"

"What did you see, Charlie?" asked Dave Curtis, in an awed voice.

"A figure all in white—yes, sir, I did," and Charlie's sharp little eyes stared out with excited gleam. "I tell you what we can do," ventured Nat Price. "This is Friday night, and we can go down, a whole crowd of us, and make a call on the old ghost."

"You better not," exclaimed Charlie Gibbs, shaking his head; "I've seen 'em, and I don't want anything more to do with 'em." It was dark that evening when we started. Nat led the way, telling us in a loud voice how foolish it was to believe in ghosts, and boasting that he had yet to see the haunted house which he didn't dare go into at any time of day or night.

The shadows lay deep in the north and as we walked up toward the Shattuck place, the gable end of the building came first into view above the roadside bushes, and then, as we drew nearer, the whole gang, forlorn old houses stood outlined in inky black against the moonless sky.

"Where's your ghosts?" asked Nat, turning to Charlie Gibbs. "I—I don't know, wait till you get to the house," chuckled Charlie, in reply. He was evidently badly frightened, and that helped to frighten some of the younger boys. Even Nat was a little subdued.

"Come on," he said; and we followed in a knot, huddling around Nat, who was talking in a boastful tone as if to assure himself that there was not the least danger in the world.

At the front porch of the old house we paused again. The vacant windows fairly seemed to yawn with darkness, and as he continued to fore what a terrible thing plain pine lumber when built into a haunted house could be.

Nat advanced to the porch, and his first step on it sounded hollow and heavy. Still, he heard no sound from within, not even the sighing of the wind through the open doors or windows.

"Where's your ghosts?" called Nat, in a harsh voice, from the doorway.

"I didn't see like Nat's voice to us at all, but rather an echo. Charlie Gibbs was evidently about to answer, when somewhere from within came a long, low wailing cry, and to a sudden standstill in the middle of what had once been the hallway to the old house. Dave Curtis seized my arm and pinched it hard, and we were all breathlessly quiet for fully a minute. Then Nat spoke in a low tone in a faint whisper: "Still with his 'bountiful air'—No ghosts around here—it's all foolishness."

PANSIES.

"I love almost all flowers that blow," said Daisy. "But I don't like the pansy, because your nose you fill, and you think it's winter chill. And fairly shiver, just to see 'em. They crowd and creep, and hide, and show. The very prettiest flowers that blow." Said Fido, "Are the pansies dear little flowers black and white? They really seem unable to think. They look at you like they dwell. Their thoughts they must each other tell. They think to look will make each other feel. Daisy to Daisy in the field."

"Darley, why are you received with such favor at the Whirlocks?" "And why should I not be?"

"Well, I'm an old enough friend to speak plainly. I admit that there is much about Whirlow that appears genuine; but you are not their kind. They might see you as a rival."

At this we huddled closer together; Charlie's "they" had struck a cold chill to our hearts. Who were they? That lifted his shoe, there was the sharp spatter of a match, and six boys found themselves gazing into one another's white, frightened faces, made all the more terrifying by the faint flickering of the light.

For the third time the wailing voices, now seemingly all about us. We all started and looked around, and then on the floor, directly under us, came the sound of three muffled blows.

"That's it! That's it!" gasped Charlie Gibbs, and then the match flickered suddenly out and left us in darkness—a darkness blacker and more dense than it was before.

"We crowded matters as rapidly as consistent with having the aunt sit with us. She lived in a retired street and early in the evening I took up my duty at the front gate as guard, with an understanding that Whirlow would pin his hands to the wall, and would not enter the contract for life was completed."

A BOLD STROKE.

It Turned True Love Into Its Proper Channel.

"Darley, why are you received with such favor at the Whirlocks?" "And why should I not be?"

"Well, I'm an old enough friend to speak plainly. I admit that there is much about Whirlow that appears genuine; but you are not their kind. They might see you as a rival."

At this we huddled closer together; Charlie's "they" had struck a cold chill to our hearts. Who were they? That lifted his shoe, there was the sharp spatter of a match, and six boys found themselves gazing into one another's white, frightened faces, made all the more terrifying by the faint flickering of the light.

For the third time the wailing voices, now seemingly all about us. We all started and looked around, and then on the floor, directly under us, came the sound of three muffled blows.

"That's it! That's it!" gasped Charlie Gibbs, and then the match flickered suddenly out and left us in darkness—a darkness blacker and more dense than it was before.

person of a family had died with con-
sumption was considered a sure sign
that others of that family could not
escape it. This is partly true and
partly untrue. A man with weak
lungs is likely to transmit that weak-
ness to his children. But there is no
reason in the world why the weakness
should be allowed to develop. Keep
the lungs full of rich, red, wholesome
blood, and the weakness will dis-
appear. Decaying tissues will be
thrown off, and new material will be
added until the lungs are well and
perfectly strong again. This is the
thing that Dr. Pierce's Golden Medical
Discovery does. This is what
makes it cure 98 per cent. of all cases
of consumption where it is taken ac-
cording to directions. It searches out
disease germs wherever they may be
in the body and forces them out of
the system. It supplies the blood
with rich, life-giving properties. It
makes the appetite good, digestion
perfect. Send 21 cents in one-cent

A Sound Liver Makes a Well Man.
Are you bilious, constipated or
troubled with jaundice, sick head-
ache, bad taste in mouth, foul breath,
coated tongue, dyspepsia, indiges-
tion, hot dry skin, pain in back and
between the shoulders, chills and
fever, etc. If you have any of these
symptoms, your liver is out of order,
and your blood is slowly be-
ing poisoned, because your blood does
not circulate properly. Herbine will cure
any disorder of the liver, stomach or
bowels. It has no equal as a liver
medicine. Price 75 cents. Free

Wild Animals Recognize Their Ancient Enemies - Monkey in a Pinch.

Most of the keepers at the Zoo
are agreed that these animals
which exhibit such a variety of dis-
likes for visitors have the strongest
possible antipathy for black men.
Children they also dislike, but for
the obvious reason that children
tease them. It has long been no-
ticed that all the monkeys hate a
negro; but the experiment was re-
cently tried on a large scale, and the
scope of animal antipathy for the
dark-skinned races was found to
extend far beyond the monkey-
house.

When Mr. Hagenbeck's Somalis
were at the Crystal palace, they
were invited one Sunday to see the
Zoo, whither they went, accom-
panied by Mr. Menzies, the African
explorer and hunter, who had
brought them from Somaliland.
There was nothing with which the
most sensitive European could ob-
ject in the appearance of these free,
half Arab tribesmen, and much
that was most attractive.

They were strait and tall; they
had high noses, fine eyes, white
teeth, and a skin the color of a
not quite ripe black grape. They
were strict Moslems, exquisitely
cleanly, washing constantly, not
only their limbs and bodies, but
their teeth and hair. They dressed
in the whitest of linen, and carried
weapons of the brightest steel,
spending their spare moments in
polishing either these or their
teeth. They did not smoke, they
did not drink, and the large room
in which some 30 of them slept was
as sweet as a hay loft; and they
much objected to the British work-
man coming into their room,
because his clothes were dirty.

When all this gallant company of
dark men entered the lion-house
there was an uproar. The animals
were furious. They roared with
rage. The apes and monkeys were
frightened and angry. The lions
were alarmed, and even the
phlegmatic wild cattle were excited.
They recognized their natural
enemies, the dark-skinned men who
have hunted them for a thousand
centuries in the jungles and the
bush, and with whom their own
practices did little when they were
captured and carried off captive in
the Nubian deserts; and like the
Grecian ghosts at the sight of
Achilles in the clouds, they raised a
war-cry, though the sound did no
dile in their throats. Animal antipathy
is thus closely correlated with
like emotions in man. It may be
traced in all its variations from
purely instinctive and physical dis-
likes, the dislike for the camel felt
by the horse being much on a par
with that felt by a southern white
for a Southern American negro, to its
rational climax in antipathy based
on danger, known to animals, and
men alike, and exhibited in the com-
mon and intense horror of the
poisonous snake. A tame monkey
has been known to drop down in a
dead faint when suddenly con-
fronted with a snake. This sounds
strange to human, but fainting in
sudden terror, though rare among
animals, in which this form of panic
more often causes paralysis of the
limbs, is not confined to monkeys.
Gray parrots, which are highly
nervous birds, will drop from the
perch and lose consciousness under
any strong impulse of fright. - Lon-

A LEGAL LIGHT.
A Story Told of an Illinois Judge -
Wanted to Consult "Idem."
Illinois shines in the reflected
glory of vast quantities of legal erudi-
tion.
An attorney from the east had oc-
casion to try a case recently in a
city on the east bank of the Mis-
sissippi. The opposing attorney
raised the point as to twice placing
a person's "life or limb" in jeopardy
for the same offense. He rounded
up a number of periods with the
word "jeopardy." Trippingly it
came from his tongue, "jeopardy,"
"jeopardy," and thrice he repeated
it "jeopardy." The eastern attor-
ney smiled at first, but when the
words rose in a series to a climax he
coughed violently to hide his laugh-
ter. The presiding genius of the
bench knew that something was
wrong. He fidgeted in his chair,
frowned and finally walked down to
confer with the visiting attorney.
"That blamed fool means jeop-
ardly," he vouchsafed, by way of
explanation.
It was this judicial worthy who
strolled into a law library one day
last summer and asked the custo-
dian "Idem Vol. XII."
"What?" asked the astonished
librarian.
"Idem Idem!" said his honor, im-
patiently. "Lawyers often consult
me on the law of a day passed by you
hear of Idem." - Louisville Republic.

DR. BELL'S PINE TAR HONEY.
Advances a new theory in the treat-
ment of all Cough, Lung and
Bronchial Troubles - It cures
and cures quickly.
Absolutely harmless and pleasant
to take. It cuts loose the mucous
without exertion or straining and
stops the cough at once by healing
the inflamed parts; gives vigor and
vitality to the respiratory organs and
produces a condition in which all the
functions are exerted with regularity
and harmony.
Most druggists sell you what you
ask for. Some will ask you to take
something which they claim is "just
as good." Sometimes a little more
will induce them to do this, Dr.
Bell's Pine Tar Honey is the best
cough, cold and grip cure. After
you try it once you will like it too
well to accept any substitute.
Quit coughing is easy enough if
you know how to do it. The best
way to quit is to take one dose of Dr.
Bell's Pine Tar Honey. Summer
coughs, lung coughs, winter coughs,
bronchitis or any other kind of
cough or cold is speedily cured by
the use of this remedy. Children
love it. Old people like it.
No greater caution can be had of a
person than ill health. Cough and
colds in themselves are not serious
maladies. The more trivial cough or
cold neglected, may lead to asthma,
bronchitis or consumption. The
right time to treat a cough or a cold
is right away. Delay means danger.
Dr. Bell's Pine Tar Honey is a quick
cure, a sure cure and a safe cure.

Geo. W. Center.

—The late Dr. J. P. Thomas' double strength digester, known as VITALIA, for the cure of dyspepsia, is for sale at Hardwick's and Elgin's.

Mrs. Watkins Northington, of Guthrie, has sufficiently recovered from the accidental wound inflicted by her husband some time ago to be removed to Clarksville. Her physicians report that she is getting along as well as could be expected, and is steadily recovering from the effects of the unfortunate accident.

—The Tandy place, corner Clay and 16th street, six room cottage, is for rent for 1897. Apply at this office.

The gross earnings of the L. & N. railroad company for the fourth week in December 1896 were: freight \$398,500, passenger, \$149,810 miscellaneous, \$37,390; total, \$585,700, which was an increase of \$82,640 over 1895, an increase of \$104,442 over 1894, an increase of \$91,726 over 1893, but a decrease of \$65,175 from 1892.

The Clinton Democrat, speaking of the Moss-Rust wedding, makes this pleasant reference to the bride:

"Miss Rust was a teacher in Clinton College up to Clinton, and the hearts of all her pupils and many besides. She has an acquaintance in Clinton which insures her a cordial reception as a 'niece' of our community. There are few people on earth to whom the Democrat would extend a more hearty welcome to Clinton. The groom is one of our leading attorneys and has hosts of friends here who will give him and his fair bride a warm welcome when they arrive to day."

The "R. T. C." club was entertained at the home of Mr. B. B. Harrod last Friday night, and a pleasant evening was spent. Mr. Barnett Blakemore, the famous "two stepper", acted as host, and Miss Beulah Harrod as hostess, and had their hands full in entertaining the large crowd. But on account of the sickness of Mrs. Harrod, the crowd was disappointed very much when it was learned that Mr. Blakemore could not dance for the amusement of the crowd. But as most of the crowd was of a "Doo-pa la wa fa-la" nature, it was hard for the charming hostess to entertain, but she may feel lightly home! at the grand success she made.

Mr. Charles F. Underhill will lecture at the Tabernacle Jan. 15 for the Library Association. Mr. Underhill brings to his task excellent abilities which show the result of fine training and liberal culture. Although not technically an actor, he possesses much of the power and spirit which belong essentially to the stage. In other words he manages to identify himself with a character in such a way as to produce an illusion. Yet it must not be inferred from this that he aims at stage effects, or that, indeed, he seeks to make any ambitious display of his talents as an actor. His method is that of the dramatist, and what is better, of the dramatist who has studied in a good school. He neither strains for vulgar applause, nor does he ever drop into that affected manner which is so painfully characteristic of many actors.

He has a strong, strong voice which he modulates with remarkable ease; a fine, clear, deep, and a thorough understanding of the art of gesturing. His extraordinary memory enables him to deliver with book or note, and his skill in characterization and the use of the voice enables him to present living images of his authors' creations.

On scholarly attainments, artistic execution, exquisite polish and repose of manner, Mr. Underhill is unsurpassed.

In other things

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

Master of Elocutionary Art. J. Alcock, Sec'y of the Lecture Association at Dubuque, Iowa, pays the following high compliment to Mr. Chas. F. Underhill, who lectures at the tabernacle in this city for the Library Association, Friday evening, Jan. 15:

"Mr. Chas. F. Underhill has been one of the most pleasing features of our lecture course for two successive seasons. He has appeared before six different audiences in this city in the past year, and is now more popular than ever. He is a delightful gentleman, a complete master of high elocutionary art, and his entertainments cannot fail to please the most fastidious. We have already secured him for our course next season, and we feel assured he will be a standard attraction in Dubuque for several years to come."

Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—pleasant food—pleasantly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a complicated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly for all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all druggists.
